

Tender Title:	PUBLIC OPEN SPACE TREES
Tender Reference Number:	JICP2024PoS
Client:	JICP
Publication Date	10 October 2024
Proposal Submission Deadline:	21 October 2024

Q&A

Expanding on the requirement for setting up temporary nurseries	The implementing partners may have some basic resources, but vendors can provide more than just advice. Vendors can assist with both materials and training to establish temporary nurseries, ensuring the trees are stored in conditions that maintain their health before planting.
Number of local partners	The project is working with Alexandra Water Warriors, a local partner based in Alexandra. Labour for tree planting will be supplied through the local partner and funded by the SUNCASA Project.
Grant or donation raising	The note refers to potential additional funding to enhance the project's impact. Vendors or partners who can secure additional funding or in-kind support will be looked upon favourably
Suggestion of indigenous trees not on the list	Vendors are welcome to propose additional tree species that are indigenous to Johannesburg and can withstand frost, however, these trees need to be approved by Joburg City Parks and Zoo.
Provision of water bowsers	We encourage bidders to propose the provision for water supply or propose a solution for watering the trees during the project phase.
Extension of tender submission deadline	Yes, JICP will be extending the deadline to Monday, 21 October 2024, 17:00 PM.
Area for stockpiling trees and security	The space available for stockpiling trees will be determined in collaboration with local partners. Security is the responsibility of the local partners.
